 - C. Because they believe strongly that along with a highly qualified education some skill development quality skills and a sense of contribution towards society. Should be there for a successful and right career.
 - D. They choose it as it seems to be a lucrative career path.

The IAS officer who cut covid-19 spike by 75%

The second wave of COVID-19 overwhelmed India's healthcare infrastructure which was already challenged. While there were a lack of beds and shortages of oxygen cylinders in many parts of the country, Maharashtra's Nandurbar district had an efficient system in place. When there was a steady decline of cases, many cities and villages began removing their temporary Covid care facilities. But IAS officer Dr. Rajendra, instead, ramped up the infrastructure in case there was a recurrence of cases. He installed additional oxygen plants, brought in ambulances, ventilators, beds, vaccines, medicines, staff, a website, and control rooms in every block. He used a combination of resources to meet expenses. To avoid a massive shortage in terms of frontline doctors, he brought in all the local doctors and trained them to perform critical procedures such as intubation and monitoring oxygen level. All these efforts paid off when the second wave of the pandemic came. People from even the neighbouring districts and states now visited Nandurbar district for treatment. The district also managed to reduce the disease rate.

 - b] During such times, the Government should ensure there is a reliable source of information that doesn't overwhelm people & yet communicate crucial information.

Borosil's People Policy

Consumer products brand, 'Borosil' has announced that in the event of an employee's unfortunate death due to COVID-19, his or her family will continue to receive salary for the next two years. Family members will also be eligible to receive other additional benefits the employee is entitled to. More importantly children's education till graduation will completely be covered by the firm. The firm, which had lost 4 of their employees (as of May 2021) due to the pandemic, said it will do everything to keep employees and their families' future safe and secure during these times. The Managing Director of Borosil rightly pointed out that the "real assets of Borosil are not reflected on our balance sheet at all." He made it very clear that the Company intends to protect and safeguard their assets. This was announced to further the Company's commitment towards the workforce.

Borosil and Borosil Renewable are also conducting medical counselling sessions with senior doctors, helping employees to get help in medication and hospitalization if required.
